

ANDERS TECHNOLOGY SERVICES

DATA ANALYTICS / BUSINESS INTELLIGENCE

Decision makers have to face unknown situations frequently, but what if you could use actionable data to reinforce your decisions? Data analytics and business intelligence weave together pieces of the puzzle for you so you can see the full picture. Imagine customized reports to provide answers to key stakeholders while making insights and suggestions based on your company's data. Our group of technology advisors has the tools and expertise to help you gather, structure or analyze your data to drive your business forward.

Your Data + Our Expertise = Better Business Decisions

Our team of advisors are experienced in business intelligence and can incorporate data analytics into your processes based on what questions and problems you're wanting to solve. We'll show you how to use the data you have to analyze the past and help predict future outcomes.

DATA INVENTORY AND OPPORTUNITY ANALYSIS

Assess how your data can work for you and what insights are possible

DATA INSIGHTS MADE REAL

Make valuable insights available to your decision makers

DATA MOVEMENT

Export, import, convert, migrate and merge your data how your business needs it

DATA MAINTENANCE

Database backups, maintenance, performance improvements and more

When you take the time to get into the details of all areas of your operations it's amazing the improvement opportunities you can find, and good data analytics is the tool that can help.

“Companies that use analytics are 5x more likely to make faster decisions.”

-BetterBuys.com

Look to Anders for these Data Analytics services:

DATA INVENTORY & OPPORTUNITY ANALYSIS

Analytically review available data and provide recommendations of what insights or usage might be possible from that data should further analysis be performed

DATA WAREHOUSE

Build a data warehouse with cleansed, organized, pre-related data available to end users through reporting applications like Power BI

INTEGRATIONS

Move, transform, or clean in-place data or move data from one format or system to another; automated and repeating

REPORTS / DASHBOARDS

Build reports based on existing data

AUTOMATION

Replace manual processes with automatic processes to move files and/or data, collect information, generate and share reports, etc.

DATA CONVERSION

Move, transform, or clean data from one format or system to another

DATA REPOSITORY UPGRADES & MIGRATIONS

Move data from one database platform to another (Oracle to SQL) or upgrading an existing SQL instance to a higher version using the data you may already have, Anders can assist you in transforming the performance of your company with boosted revenue and profits as well as improved customer satisfaction and retention.
